

The Funni Farm Product Availability & Backorder Policy

Effective Date: January 1, 2026

Inventory

We work to maintain accurate inventory levels, but product availability is not guaranteed until your order has been accepted and processed.

Out of Stock

If a product becomes unavailable after your order is placed, we may contact you with available options, including waiting for restock, selecting a substitute with your approval, or receiving a refund.

Backorders

When offered, backordered items will ship as soon as inventory becomes available. Estimated availability dates are approximate and subject to change.

Partial Shipments

Orders containing multiple items may be shipped in separate shipments when appropriate.

Order Cancellation

If a delayed or unavailable product cannot be fulfilled within a reasonable period, we may cancel the affected portion of the order and issue an appropriate refund.
